

THE AMPLIFIER CAT LOVERS HAVE BEEN WAITING FOR!

The JL1 triode monoblocks exhibit the type of innovative thinking and fanatical attention to detail for which CAT is famous. Years of research, testing and listening have produced a power amplifier of incomparable performance that has been acclaimed by reviewers around the world.

At last, audiophiles and discriminating music lovers can make a meaningful upgrade to the amplification section of world-class stereo systems. The JL1 monoblocks take modern tube design to the limit. Match it with a CAT preamplifier for a truly singular musical experience.
